22/09/2017	* Reviewed and merged PR's #13299, #13301. I did review them myself since they were of topics on which I myself have written code for in the past. * Tagged PR's for which I could understand the topic and possible SymPy/author action (SymPy's turn, Author's turn), also pinged possible-interested reviewers on a few of the PR's.	1.75
23/09/2017	* Major PR's reviewed/merged: #12491, #12029, #13335. * Closed longstanding unresponsive PR (from author's side) #13165. * Tagged recently opened PR's.	1.5
24/09/2017	* Followed past conversation of PR's #12970, #12741, #12567, PR's related to SymEngine backend and polite pinged accordingly to address the changes. * Looked over PR #13339. No PR got merged, but that's not to worry about. It's the beginning and I am keeping track of on which PR's I have pinged people and which PR's still require mentor attention, which are having current ongoing conversation. Though currently on a small list, when pinged people do get back on them I'll ping the respective mentor or address them accordingly (individually). Just hope all the pinged don't respond at the same time concurrently.	1.5
